

WORLD RANKING LIST in HOT AIR BALLOONING - 2013

of the Commission International Aérostatique (CIA) within the Fédération Aéronautique Internationale (FAI)

Version July 2013 includes now 918 Pilots from 39 Nations

calculated for July 2013

The World Ranking List was first established in 2000. Its purpose is to show a ranking of the top hot air balloon pilots of the world. The list is established by a calculation formula that includes the results of the World Championships, the World Air Games and to minor effect the competitor's national ranking position. The list is updated whenever new results of the World Championships or the World Air Games are available.

The intention of this World Ranking List is to provide a performance comparison among pilots of the world. This World Ranking List is not to be used for invitational purposes! The calculation formula of this Ranking List is to be proven over a series of years and might be adapted.

A service by the Competitors Subcommittee of the CIA / FAI. Detailed explanation is available on request.
